Size: 46 x 13 x 11 mm
Colour: MTL

ZENS welcomes you to the world of

Qi aims to do for wireless charging what Wi-Fi did for wireless networks. A global standard which guarantees your device can be charged wirelessly, wherever you are. Qi = the sign of things to come

The concept of Qi is simple: all devices with the Qi logo will work with all Qi chargers. This concept does away with the need for separate chargers, no need for cables or adapters when traveling. Qi will become THE global standard – which means your device can be charged wirelessly wherever you are.

Samsung Galaxy S3 is ready for Qi as is Google Nexus 4 and Nokia Lumia all of which have wireless Qi charging built in.

ZENS is constantly developing new products such as the wireless charging solution for the Samsung's Galaxy S3. Simply replace the back cover of the Samsung with the one from ZENS and you are ready to charge wire-free.

Available in Marble White or Pebble Blue to perfectly match the colour of the Samsung Galaxy S3 device.

1427 Zens Wireless Single Charger

wireless charging through

2442 ZENS Samsung Galaxy S3 cover

To charge your Galaxy S3 you need a ZENS charger (1427) and this battery cover. You simply remove the standard cover from your phone and replace it with the ZENS Samsung Galaxy S3 Cover. It is now ready to be charged wirelessly.

Size: 136.6 x 70.6 x 8.6 mm
