

Twister Series

The Twister Series USB Flash Drive has a unique 360 degree rotating metal shell which can be screen printed on both sides (1-4 color screen print included in quoted prices). This design feature means there is no cap to lose. The flash drive comes with a small split ring on the end as standard for easy attachment to keys or neckstrap.

Twister Series

Wafer Series

promote your business in vibrant colour...

The Wafer USB Card is one of the thinnest USB Cards in the world at just 2.3mm thickness. Both sides of the USB Card can be completely photo printed in full vibrant color. The large brandable area will ensure your logo is highly prominent - most companies prefer to submit a complete design to cover the entire USB card rather than a standalone logo. USB cards slip neatly into your pocket, wallet or organiser and take up little space.

Wafer Series

Voyager Series

The perfect USB flash drive for those born to travel. The leather 'flip top' protects the USB connector so there is no lid to loose while a sturdy, highly polished, metal loop makes the perfect attachment point for a key-ring, neck-strap or other objects. We offer you 3 alternative shades of leather - ebony black, traditional tan (brown) and a elegant white. All prices include screen printing with your logo in 1-3 colours or laser engraving.

Torpedo Series

Tie Series

The stunningly simple design appears to observers to be a normal tie clip beautifully engraved with your corporate logo and if that's all it was, it would still look great. But the real power of the Tie Series is hidden from view behind the tie – a USB Flash Drive in any capacity you may wish for. Without even needing to remove the Tie Series from your tie, the USB Flash Drive can be detached and used just like any other Flash Drive. When you're finished, simply re-attach the drive to the tie clip and you're done. All quoted prices include laser engraving on the metal clip with your logo or text, and screen printing in 1-4 colours on the back, if required.

Rotator Series

Pop Series

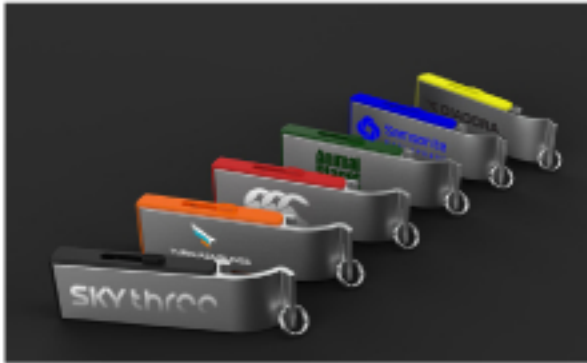

Form and function in perfect harmony. The Pop Series combines two extremely useful devices into a single brilliantly understated design ready for branding with your company logo or corporate identity. Effectively two corporate gifts in one, the Pop Series is equally at home both inside and outside the office meaning greater exposure for your branding message. High grade aluminium ensures that bottles are opened quickly and easily every time while the soft-touch plastic edges of the drive can be Pantone matched to fit perfectly with your requirements.

Kinetic Series

Key Series

The Key Series Flash drive is one of this year's most innovative products - perfect to unlock the potential of your next promotional campaign. Made from highly polished stainless steel, the model can be laser engraved with your logo and corporate message in precise detail. Use of the latest integrated circuitry ensures this product's dimensions are similar to those of a regular door key so it will fit snugly on your keyring. Despite this product's small size, quality, and good looks, the price is as competitive as our regular flash drive products.

| | |

Key Series

Ink Series

The Ink Series USB Memory Pen offers the perfect convergence between the USB Flash Drive and the ballpoint pen by offering style, comfort during use and excellent branding potential. This unique Flashbay design, printable in 1-4 colours, doesn't compromise form or function and ensures that your branding message will stay in the hands of your customers, prospects, partners and employees for a long time to come. An innovative magnetic mechanism ensures that the USB Flash Drive can be easily removed when required while being held perfectly in place when not in use. The Ink Series USB Memory Pen offers combines 2 of the most popular promotional items into a single product - why choose whether to promote your brand using a USB Flash Drive or a high quality ballpoint pen when you can have the best of both worlds? The Ink Series USB Memory Pen is quite simply 2 promotional gifts in 1.

Ink Series

Image Series

The Image Series USB Flash Drive can be branded with a full color, non-scratchable, resin domed logo. As we print in full color, this USB flash drive is perfect if your logo contains color gradients or if you wish to add an image such as a photograph. The resin dome also provides color fade protection from UV light. The main flash drive body has a 'soft-touch' feel and has a large loop at the end for neckstrap attachment. Prices include full branding with your logo.

Image Series

Halo Series

Amazingly thin and incredibly compact (it has to be seen to be believed), the Halo Series is an understated and striking model which represents the latest developments in USB Flash Drive design. Created by Flashbay, the unique design allows light to shine through the edges of the USB flash drive, creating an eye-catching halo effect when connected to a PC or laptop. For this reason we offer the model in a choice of LED (light) colors to complement your corporate colors. Despite its small size, this model features a good brandable area which can be screen printed in color or laser engraved to showcase your logo on both sides.

| | |

Halo Series

Event Series

The Event Series offers the ultimate in convenience by integrating a USB Flash Drive with the familiar lanyard neck strap. This makes it ideal for use by conference organisers or institutions that require identification to be displayed. The patent pending mechanism employs a rare earth magnet to allow quick-release access to both the USB Drive and the important attached items to the end of the lanyard. The mechanism has the added benefit of allowing the Flash Drive end of the product to safely 'break away' from the neck strap lanyard should it become accidentally snagged. Available in a wide variety of colours, both the USB Flash Drive and the lanyard neck strap can be branded with your company logo.
