The introduction of our original and unique slap on watch proved to be a great promotional tool for many companies. However this success also attracted illegal copiers to duplicate our products.

Please note that only the PSL Design slap on watch series has been utility and design patented. We now offer four types of slap on watches (original, mini, two tone , slim and M Watch) and multiple imprint technologies like Silk screen and our special laser engraving on the silicone material.

We thank you for your support in choosing the original and unique PSL Design items!

Light on time

Gadget watches should not only be available for people like James Bond. Projecto enables you to project the current time on your wrist.

Of course you can also share the time with other people! Simply aim at e.g. a wall or table nearby, press the button and amaze your audience! The large doming imprint area on the watch dial makes this a perfect promotional item.
