Aerating Funnel for Decanter
Aireador de vino para decantadores
120 x 45 x 185 mm.

Pulltex Decanting Funnel is designed for decanting wine, reserve wine and grand reserves that have been aged in bottles for a long period of time. In order to release all their aromatic potential, such wines have to be properly oxygenated.

El aireador de vino Pulltex permite oxigenar los vinos que han permanecido mucho tiempo en botella, reservas y grandes reservas. Son vinos que tras un largo periodo encerrados en la botella necesitan tomar oxígeno para poder desplegar todo su potencial aromático.

Pulltex Wine Saver is used to prevent wine oxidation once the bottle is opened. With Pulltex Wine Saver you can take out the oxygen from the bottle and use it as a stopper to close the bottle. In this way, the wine will be kept in perfect conditions for 5 days more and you will enjoy drinking good wine even if you do not finish the bottle in one day.

La bomba de vacío para vino Pulltex nos permite disfrutar de buenos vinos aunque no los vayamos a terminar, podemos extraer el oxígeno que ha quedado dentro de la botella y evitar así la oxidación del vino. Con la bomba de vacío Pulltex podemos conservar un vino guardado en fresco hasta 5 días sin que pierda ninguna de sus propiedades.

Wine & Champ. Cooler
Manta enfriadora de Vino y Cava
120 x 22 x 185 mm.

Pulltex Wine Cooler is specially designed to keep the wine cool on the table. It has to be kept in the freezer and taken out before using it. You may use it equally for a wine bottle and for a bottle of sparkling wine as there are two positions of closure depending on the diameter of the bottle. With Pulltex Wine Cooler we can keep wine cool on the table for more than 1 hour.

La manta de frío Pulltex nos permite mantener frío el vino sobre la mesa sin necesidad de utilizar grandes cubos que ocupan espacio. La manta debe conservarse en el congelador siempre y debe sacarse para ser utilizada, colocándose alrededor de la botella de vino blanco o de cava según la posición en que se cierre la manta. La manta Pulltex nos permite mantener frío un vino en la mesa durante más de 1 hora.

For a Special Occasion

The tradition of uncorking or "beheading" the champagne bottles with a sabre designed for such a purpose, has arrived to our table. During the time of Napoleon, the Hussards military body celebrated their victories by uncorking champagne bottles with a sabre. This tradition has become a spectacular ceremony for uncorking champagne bottles. Sliding the sabre along the bottle and with a sharp hit on the base of the neck we can uncork a bottle without breaking it.

Set sable (sin botella)
560 x 240 x 90 mm.

Una gran tradición para una ocasión especial

La tradición de descorchar o "decapitar" las botellas de cava con un sable diseñado para tal fin a llegado a nuestras mesas. En la época de Napoleón el cuerpo militar de Húsares celebraba sus victorias descorchando botellas de champagne con un golpe de sable. Esta tradición se ha convertido en una ceremonia espectacular para descorchar botellas de cava. Deslizando el sable por la botella y con un golpe seco en la base del gollete podemos descorchar una botella por el cristal sin romperla.
