A Message from Ferran JUANÍ:

We are very excited to introduce the new Norwood Europe 2011 Catalogue. Our products are now available in more than 35 countries around the world. We have concentrated our efforts on developing the largest and most comprehensive product selection to satisfy our customer needs all across Europe. As a result, you will find more than 81 new items in your 2011 catalogue – developed to help you in winning large product proposals and new business opportunities.

You will also see the introduction of new brands as Koozie™, Atchison®, Ful®, and Sol®. These international brands offer added-value with regards to reputation and quality.

Another major improvement is the two new product indices in the back of the catalogue. This will allow super quick identification of products by segment and by price section for any budget-oriented request.

Of course, the 2011 selling season will still be supported by our three promotional cycles (January to April, May to August and September to December). These have been very well received by our customers in the past two years.

We thank you for your business and look forward to providing you a positive Norwood Europe experience in the coming year and beyond.

Sincerely,

Ferran Juaní
Vice President and General Manager

THE EUROPE NORWOOD™ EDGE

Industry leading solutions designed to make your life easier!

Norwoodeurope.com

We are continually evolving our website to bring you new and helpful features that make marketing efforts efficient and effective. The newly developed pan-European web-shop system will now serve all customers across Europe at www.norwoodeurope.com

Packaging Information

This icon communicates the packaging information for each product. The number shown inside the box is the quantity of product per polybag. The carton weight is listed next to the box.

New Product

Indicates 2011 New products. Look for the "NEW" icon on select product pages.

New Colours

Refers to 2011 New Colours. Look for the "NEW COLOURS" icon on select product pages.

General Information

The page number listed by this icon directs you to additional information and product index.

goinggreen

We offer eco-friendly product solutions to help you and your customers advocate the green lifestyle.

TRAVEL FRIENDLY

Travel Friendly

Look for this icon on products with features that provide convenient access through most security checkpoints.

CABIN FRIENDLY

Cabin Friendly

This icon identifies products that meet carry-on luggage limits of most major airlines.

LAPTOP

Laptop

Products with this icon are designed to hold and protect a laptop.

Mobius Loop

Product contains recycled material.

Exclusive

Exclusive items only available through our catalogue.

Water proof

Fabric is able to withstand water, which is suspended on top of the fabric before seeping through.

Wind proof

Fabric is able to withstand wind, which is blocked and keeps the warmth inside the garment.

Breathable

This is measured by the rate at which water vapour passes through a garment. Measurement in grams of water vapour per square metre of fabric per 24 hour period.

Water Depth

This icon identifies the maximum water depth reachable by the product.

2.0

USB Capacity

USB memory capacity in Megabites or Gigabites.

ISO 9994

Conform ISO 9994

Child Resistant

This icon identifies the lighters that accomplish the Child Resistant legislation.

max 12 colours (W)

Optional:

SP: Back 300 mm W x 300 mm H
max 4 colours (S)

TD: Back 300 mm W x 300 mm H
4 colour process (V)

Standard packaging: Polybag

50 = 19,65 Kg (approx.)

36012 Fleece-Lined Waistcoat with Contrasting Shoulders and Sides

100% Fleece Lining Waistcoat with anti pilling finish. Shoulders and sides reinforced in 100% polyamide. Individually packed.

Material: Fleece lining

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

EM: Chest 90 mm W x 90 mm H
max 12 colours (W)

Standard packaging: Polybag

20 = 10,36 Kg (approx.)

36010 Multipocket Vest

Multi-Pocket Waistcoat in 100% cotton twill. Big pocket with zip in the back. Inside 2 pockets with easy closure. Individually packed.

Material: Cotton twill

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

SP: Chest 80 mm W x 80 mm H
max 4 colours (Y)

Optional:

TD: Chest 80 mm W x 80 mm H
4 colour process (V)

EM: Chest 80 mm W x 80 mm H
max 12 colours (W)

Standard packaging: Polybag

50 = 21 Kg (approx.)

36007 Waistcoat In Polyester Poplin

Waistcoat in 65% polyester poplin, 35% cotton with 160 g/m² polyester lining. Inside pocket with easy closure. Inside zip at the bottom of the garment to allow easy branding. Individually packed.

Material: 65% Polyester Poplin, 35% Cotton

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

SP: Chest 100 mm W x 100 mm H
max 1 colour (Y)

Optional:

TD: Chest 100 mm W x 100 mm H
4 colour process (V)

EM: Chest 100 mm W x 100 mm H
max 12 colours (W)

Standard packaging: Polybag

20 = 11,76 Kg (approx.)

36008

Micro-Fibre Argyle Lined Waistcoat

Waistcoat in 100% polyester micro-fibre, with 120 g/m² polyester lining and corduroy collar with seam-covering tape. Individually packed.

Material: 100% Polyester Micro-fibre

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

EM: Chest 100 mm W x 100 mm H
max 12 colours (W)

Optional:

TD: Chest 100 mm W x 100 mm H
4 colour process (V)

Standard packaging: Polybag

36011

Reversible Waistcoat

Reversible Waistcoat. 100% polyamide exterior and fleece lining interior with 200 g/m², 100% polyester anti pilling finish. Pocket on breast to allow branding. Individually packed.

Material: 100% Polyamide exterior and interior 100% Polyester

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

SP: Chest 70 mm W x 60 mm H
max 4 colours (Y)

Optional:

TD: Chest 70 mm W x 60 mm H
4 colour process (V)

EM: Chest 70 mm W x 60 mm H
max 12 colours (W)

Standard packaging: Polybag

36014

Micro-Fibre Cotton Quilted Waistcoat

Lined Waistcoat in 100% polyester micro-fibre with 210 g/m² feather-effect quilting. Inside pocket with zip. Interior zip at bottom of garment to allow branding. Individually packed.

Material: 100% Polyester

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

TD: Chest 90 mm W x 80 mm H
4 colour process (V)

Optional:

SP: Chest 90 mm W x 80 mm H
max 1 colour (Y)

EM: Chest 80 mm W x 80 mm H
max 12 colours (W)

Standard packaging: Polybag

35012 Sweatshirt Jacket

Unhooded Fitted Fleece Jacket in 65% polyester and 35% cotton fleece 280 g/m².

Material: 65% Polyester and 35% Cotton fleece

Product Size: XS - S - M - L - XL - XXL

Decoration Method/Area:

Recommended:

SP: Chest 100 mm W x 100 mm H
max 4 colours (S)

Optional:

TD: Chest 100 mm W x 100 mm H
4 colour process (V)

EM: Chest 100 mm W x 100 mm H
max 12 colours (W)

Standard packaging: Polybag

37005 Fitted Fleece Jacket

Fitted Fleece Jacket in 300 g/m² 100% polyester and anti pilling finish. Individually wrapped.

Material: 100% Polyester

Product Size: S - M - L - XL

Decoration Method/Area:

Recommended:

EM: Chest 80 mm W x 80 mm H
max 12 colours (W)

Standard packaging: Polybag

37006 Fleece Jacket

Fleece Jacket in 300 g/m² 100% polyester and anti pilling finish. Individually wrapped.

Material: 100% Polyester

Product Size: S - M - L - XL - XXL

Decoration Method/Area:

Recommended:

EM: Chest 100 mm W x 100 mm H
max 12 colours (W)

Standard packaging: Polybag

35009/35010 Hooded Fitted Sweatshirt

Hooded Fitted Sweatshirt in 65% polyester and 35 % cotton, 280 g/m2. Individually packed.

Material: 65% Polyester and 35 % Cotton

Product Size: XS - S - M - L - XL - XXL

Decoration Method/Area:

Recommended:

SP: Chest 100 mm W x 100 mm H
max 4 colours (S)

Optional:

TD: Chest 100 mm W x 100 mm H
4 colour process (V)

EM: Chest 100 mm W x 100 mm H
max 12 colours (W)

Standard packaging: Polybag

25 = 14,5 Kg (approx.)

31037 Waterproof Sports Windbreaker with Thermo-Sealed Seams

Waterproof Windbreaker in 100% polyester with grooved lining. Hood hidden in collar. Thermo-sealed seams. Interior zip at bottom of garment to allow branding. Individually packed.

Material: 100% Polyester

Product Size: M - L - XL - XXL

Decoration Method/Area:

Recommended:

TD: Chest 100 mm W x 100 mm H
4 colour process (V)

Optional:

SP: Chest 100 mm W x 100 mm H
max 1 colour (Y)

General Information

File information

Required files:

- Electronic file with the graphic design (artwork)
- Separate file for the text

For individual laser engraving please provide texts only in Excel format (.xls)

Artwork features:

Please your artwork in one of the following formats:

- Jpg / 300 dpi not compressed (only for images, no texts)
- Pdf / outlined
- Illustrator CS4 / outlined
- Photoshop CS2 / with layers
- Zip files

In order to facilitate a fluid order process and obtain an appropriate final result, it is important to provide us the information in one of the above listed formats.

Minimum requirements for text and lines

Typefaces:

All the typefaces must be converted to an artwork. Verify the minimum type sizes & line weights:

Minimum type sizes:

*image 1

- Laser engraving: 6
- General: 7
- Debossing: font size 10 and reverse font size 20

*image 1

Minimum line weight:

*image 2

- General: 0,5 points
- Debossing: 1,5 points

For laser engraving we recommend the following standard typefaces:

*image 3: recommended type styles .

*image 2

Half Tones:

- Not applicable in Laser Engraving.
- We recommend 50% half tone.

*image 3

· Fritz Quadrata 1234567890	· Benguiat 1234567890	· ACaslon Regular 1234567890	· Berling Roman 1234567890
· Garamond 1234567890	· Clarendon 1234567890	· AGaramond 1234567890	· Bodoni 1234567890
· Lucida 1234567890	· Palatino 1234567890	· Americana 1234567890	· Bookman 1234567890

Technical parameters for each type of printing

Pad printing

- Minimum size of the positive text: 5 points
- Minimum size of the negative text: 7 points
- Minimum thickness of the positive line: 0.3 points
- Minimum thickness of the negative line: 0.5 points

Screen printing for flat, cylindrical & ceramic surface

- Minimum size of the positive text: 6 points
- Minimum size of the negative text: 7 points
- Minimum thickness of the positive line: 0.4 points
- Minimum thickness of the negative line: 0.5 points
- AVOID HALF TONES SINCE THEY MAY NOT BE UNIFORM

Screen printing for textile products

- Minimum size of the positive text: 16 points
- Minimum thickness of the positive line: 1 point
- AVOID HALF TONES SINCE THEY MAY NOT BE UNIFORM

Laser engraving

- Minimum size of the positive text: 6 points
- Minimum size of the negative text: NOT RECOMMENDED
- Minimum thickness of the positive line: 0.3 points
- Minimum thickness of the negative line: 0.4 points
- HALF TONES NOT POSSIBLE

Transfer digital & digital label

- Minimum size of the positive text: 6 points
- Minimum size of the negative text: 7 points
- Minimum thickness of the positive line: 0.4 points
- Minimum thickness of the negative line: 0.5 points
- It ensures personalised products can be created in full colour with a digital quality
- Creating exact, silver and gold pantone colours are not possible
- Not all the logos can be adapted for use with this technology since the print design must be a single artwork configuration.

Transfer screen

- Minimum size of the text: 8 dots
- Minimum size of the lines: 0.5 dots (0,16 mm)
- AVOID HALF TONES SINCE THEY MAY NOT BE UNIFORM

General terms and conditions

We recommend that you make real product samples in the event of any doubts about the brand or colour definition.

Samples

Select the appropriate colour to print your design. You have 2 options:

Printing colours

Matching the attribute colour

You can opt to use a printing colour that matches the colour of the attributes or accessories for most of our products.

Simply request a printing colour that matches.

Personalised colour

Select your preferred colour (Pantone PMS, C). We cannot guarantee a perfect match especially when printing will take place on a colour that is not white. This will sometimes require an additional under layer. We will always do our utmost to achieve the colour that is the closest to the one requested.

Laser engraving, embroidery, digital transfer, digital screen, transfer ceramic, screen printing, debossing and labels, all have their own specific specifications.

General conditions of sale

1. General points:

This price list replaces previous ones and comes into force on 1 January 2011. Taxes are not included.

The shipping date for the order will be specified in the order acknowledgement.

Orders must be accepted by Norwood Promotional Products Europe S.L.U. and the company is obligated only after such acceptance.

Norwood Promotional Products Europe S.L.U. reserves the right to make changes both in listed products and in prices without prior notice.

2. Tolerance of delivery and quantities ordered:

The articles listed in our catalogue are subject to minor modifications without prior notice.

Norwood Promotional Products Europe S.L.U. reserves the right to increase or decrease the quantities of the orders to make up multiples of the internal or complete packaging of these products, with a tolerance of plus or minus 3% of the initial order. The articles packed in bulk may undergo slight variations in quantity.

3. Claims and returns of goods:

Before any return is made our customer service department must be contacted.

The goods must be returned in good condition and with all the original packing in a perfect state.

Returned goods will not be accepted more than fifteen (15) days from the date of receipt (unless otherwise agreed with our commercial department) and in no circumstances for marked goods after this period. We will not accept returns of goods that have not been marked or handled by Norwood Promotional Products Europe S.L.U. Check the goods before marking or handling it.

Orders printed in Norwood Promotional Products Europe S.L.U.: the customer is responsible for any error or omission not found before our Marking document Conformity is signed (photolithography, design, position, colour, typography, etc.) Therefore, no return will be accepted once this document has been signed.

Costs arising from the cancellation or return of the order (two-way transport costs, etc.) are on the customer's account. Five euros (€5) per package will be invoiced.

Cancellation of orders will be penalised with two hundred and fifty Euros (€250) for administrative costs. Moreover, all costs generated after the confirmation of the order will be invoiced.

4. Transport:

Claims can only be accepted for missing or opened items if this is recorded on the transport agency's delivery note.

In full-load road transport (whole trailer), the unloading of the goods from the vehicles is on the recipient's account.

5. Conditions of Payment:

Payment shall be made in accordance with the conditions agreed in the corresponding purchase order.

Printing

6. General conditions for marking:

The purchaser/customer guarantees Norwood Promotional Products Europe S.L.U. that it is the legitimate owner of the industrial and/or intellectual property corresponding to the marking of the product; or it guarantees that it is in a legitimate position to order the marking.

The purchaser undertakes irrevocably to indemnify Norwood Promotional Products Europe S.L.U. for any cost, including legal costs, compensation, or any sum that may be demanded from it by any third party because of any infringement of industrial and/or intellectual property.

Norwood Promotional Products Europe S.L.U. reserves the right to reject any design or text considered reprehensible in the opinion of the company, which must be notified as soon as possible.

Once the goods have been marked, no change or reimbursement can be made.

A variation of + / - 5% increase or decrease will be accepted in the deliveries of marked goods.

7. Data Protection:

In accordance with European legislation on data protection and especially Spanish Organic Law 15/1999 of Data Protection, Norwood Promotional Products Europe S.L.U. will safeguard all information collected under this contractual relationship, including it in a computer file called "Clientes". Norwood Promotional Products Europe S.L.U. states that this file and the handling thereof is registered with the Spanish Data Protection Agency. Norwood Promotional Products Europe S.L.U. states that it has the staff and the necessary technical resources to handle this information correctly and to ensure its security. Any person that provides their personal data to Norwood Promotional Products Europe S.L.U. under this contractual relationship may at any time exercise their rights of access, opposition, rectification or cancellation of their personal data by sending a registered letter to Norwood Promotional Products Europe S.L.U. - Polígono Industrial "Entre Vías" (Complejo BIC) s/n - 43006 Tarragona - Spain.

Likewise, and in view of the fact that Norwood Promotional Products Europe S.L.U. is a subsidiary of Bic Graphic Europe S.A., when professional information is collected for any contract or order placed with Norwood Promotional Products Europe S.L.U., the interested party consents to the handling of the data strictly for the commercial and professional use of Bic Graphic Europe S.A. and/or Norwood Promotional Products Europe S.L.U.

8. Applicable Law and Jurisdiction:

All orders placed with Norwood Promotional Products Europe S.L.U. shall be governed by Spanish law. If any disagreement should arise between the parties, it shall be submitted to the Courts of Law of Tarragona, Spain.

Printing techniques

A printing technique for all your logo requirements!

Screen Printing

Printing technique that consists of transferring ink through a screen stretched on a frame. The ink cannot pass through the areas where there will not be an image because an emulsion or varnish will have been applied while the ink can freely pass through the areas that have not been blocked in this way. The substrate to be printed is placed under the frame in which the ink is placed that will be extended over the fabric using a rubber roller. The ink passes through the mesh in the image part and is placed on the paper or fabric.

This technology can be used for a wide range of materials and products such as pens, umbrellas, rucksacks, portfolios, T-shirts, etc.

Pad Printing

Printing technique that consists of a metal or plastic plate covered with a photosensitive emulsion on which the image is offset printed through a chemical process forming a gravure. This plate is covered with ink and brushed with a blade. Next, a silicon pad presses down on the plate print collecting the ink of the gravure and taking it to the piece where it will be deposited through contact. The different shapes and softness of the silicon pads allow us to deposit the ink on a large variety of substrates (flat, cylindrical, spherical, concave convex) and materials (metal, plastic, etc.)

Laser Engraving

We can obtain a permanent, unchangeable and precise print with laser printing technique on different types of materials although the best results are obtained on metal products.

The laser technique allows us to eliminate the material's surface.

Colours cannot be replicated by using this technology. The print colour is determined by the material and/or the coat that covers the product.

Debossing

This technique consists in reproducing recessed designs (through depressions) on leather and leather derivative products. This finish is obtained by heat-pressing on the product that we wish to decorate by using a metal plate with the design in relief. Colours cannot be replicated with this technology.

Transfer Ceramic

This is a high-quality and durable decorating technology that can be used for ceramics, porcelain and glass. The decorated items using this technique can be used in microwaves and dishwashers. To decorate using a ceramic transfer for the decoration, the design is printed using silk screen printing on a flat surface, the printing result is applied to the piece through a conveyor and it is fired in industrial kilns at a high temperature (approximately 800°C) to ensure the special inks vitrify. The ceramic transfer can be achieved by using an additive colour or four-colour process although it is recommended that additive colours be used since the colours are more homogenous and a lot brighter. We cannot guarantee obtaining exact Pantone colours due to the inks to be used in this process and the firing at a high temperature. Small variations in hues are applicable.

Transfer Digital

The logo is printed digitally on a thermal transfer film through a printing and cutting plotter and, then, this film is cut based on the required shape. Once the process has been completed, the logo will adhere to the product to be decorated through heat-pressing. Not all logos can be adapted for use with this technology since the print basis must be a continuous piece. Digital transfer is recommended for printing full-colour and high-resolution images when the order quantity is low. Obtaining Pantone colours that exactly match cannot be guaranteed since it is a digital technique. There will be small variations in colour tones.

Embroidery

This technique consists in multicolour decoration of flexible fabrics by using a needle and yarns. The logo to be added must be redrawn to transfer it using stitches. The embroidery machine requires this information to produce the product. This technology is especially suitable for blankets, towels, bags, parkas, caps, etc.

Digital Label

The logo is printed digitally on self-adhesive film through a printing and cutting plotter and, then, this film is cut based on the required shape. Once the process has been completed, the logo will adhere to the product to be decorated. Not all logos can be adapted for use with this technology since the print basis must be a continuous piece.

Doming

This technology consists of applying an epoxy resin to self-adhesive labels that have been previously printed to give them volume. This ensures that a label is obtained with bright volume that is nice to touch. We obtain a 3D effect.

Screen Transfer

This technique consists of silk screen printing on a siliconed paper and then transferring this to the product through heat-pressing. It is a suitable technology for printing multiple colours on fabrics when silk screen printing is not possible due to the product design or logo that needs to be printed.

Our method of decoration is only a recommendation and should always be confirmed.
 Whilst we endeavour to reproduce the product colours accurately in the catalogue, the images can vary from the actual items.
 All measurements are approximate.
 All added elements are used for decorative purposes.
 Descriptions are valid until the publication of the next catalogue, except for typographical errors.
