go modular!

Want to stay in control? We hand you the elements, you just combine and design the product that meets your specific needs.

Introducing this module concept creates many customisation options, ideally suited for current market trends. Think beyond the existing, ideas are only limited by imagination!

2010

The introduction of our original and unique slap on watch proved to be a great promotional tool for many companies. However this success also attracted illegal copiers to duplicate our products. Please note that only the PSL Design slap on watch series has been utility and design patented. We now offer three types of slap on watches (original, mini and two tone) and multiple imprint technologies like silkscreen and our special laser engraving on the silicone material. We thank you for your support in choosing the original and unique PSL Design items!

TWO TONE SLAP ON WATCH

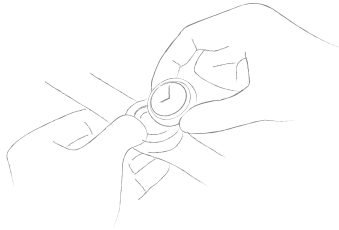

WAA0047-GY/IBU/LN/OG/PP/WE

Take steps to better health

Have you ever counted the amount of steps you take during a day? Research shows that walking less than 2.000 steps per day increases the risk of diabetes and heart diseases and walking **7,000 steps per day** should be a daily minimum for everyone.

Pedometers have therefore very quickly become one of the most popular devices used in conjunction with many physical activities. The counter belt is the comfortable solution for wearing your pedometer unnoticeable for other people. Integrated in a high quality leather belt you can count your steps and calories no matter the occasion. The counter belt can even be worn with a suit to count every business step you take!

COUNTER BELT

SSP1028-BK

3G pedometer integrated in either black or brown PU leather belt. Counts steps, distance and calories. Can even be worn with your business suit!

watch

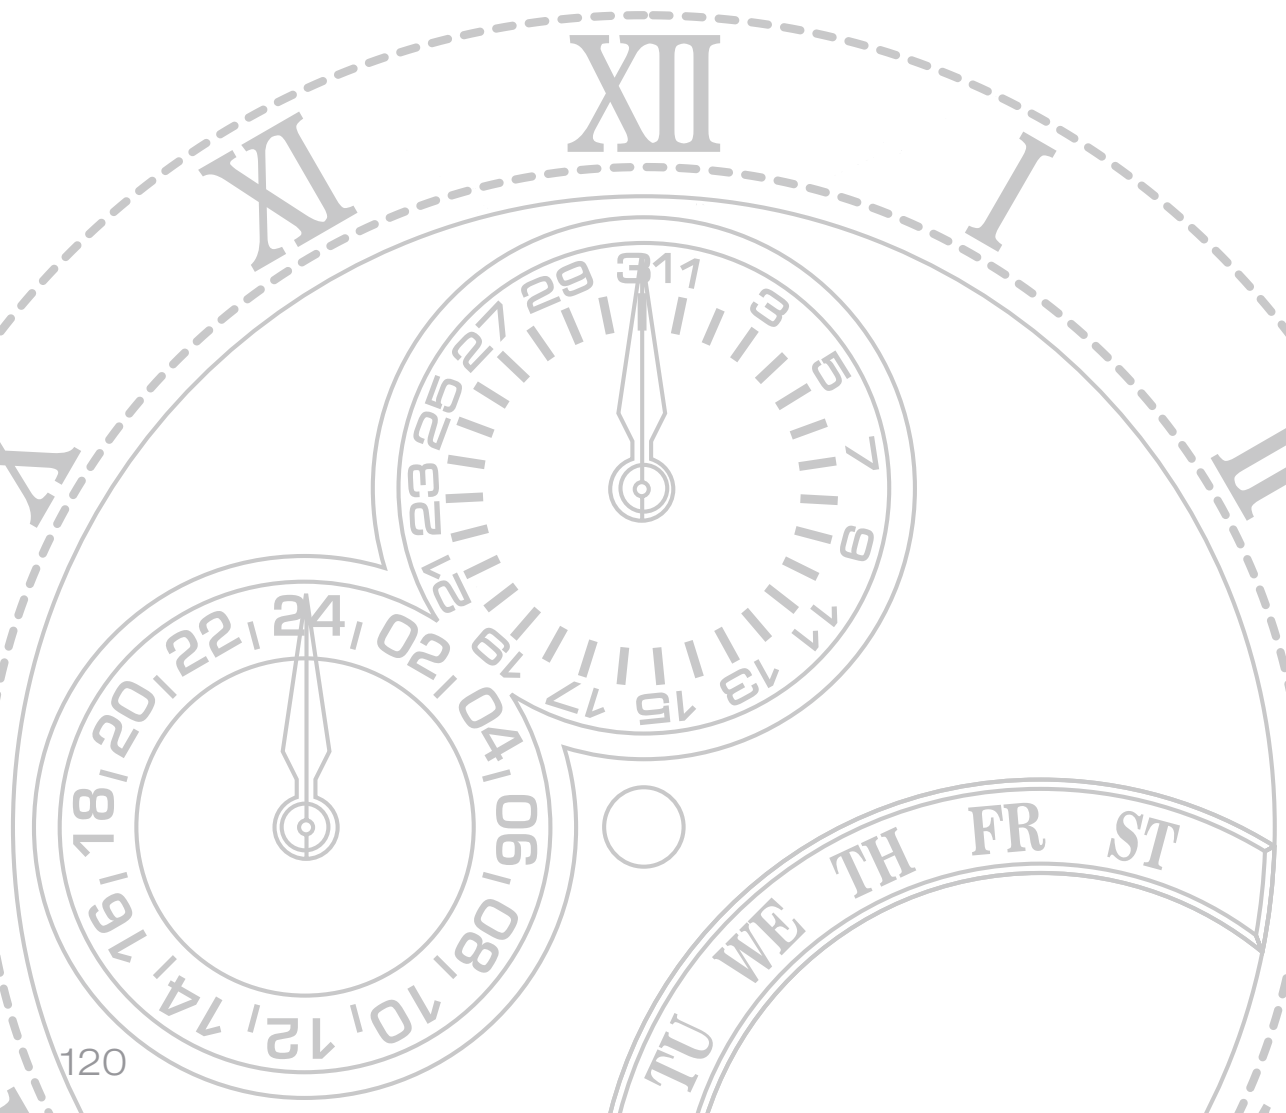

Can you name the thing that people always seem to be out of? Besides money it seems we are all lacking time to be able to do all the things we would like. In order to manage our activities within the limited time that we have, we build schedules and make appointments. Therefore the need will always be there for tools to manage our time; most importantly a watch.

Customized with your logo a customer (or employee) will never be to late again and better yet, he will notice your company at least seven times a day!

PHILIPPE PECHARD™

More than a Time Piece

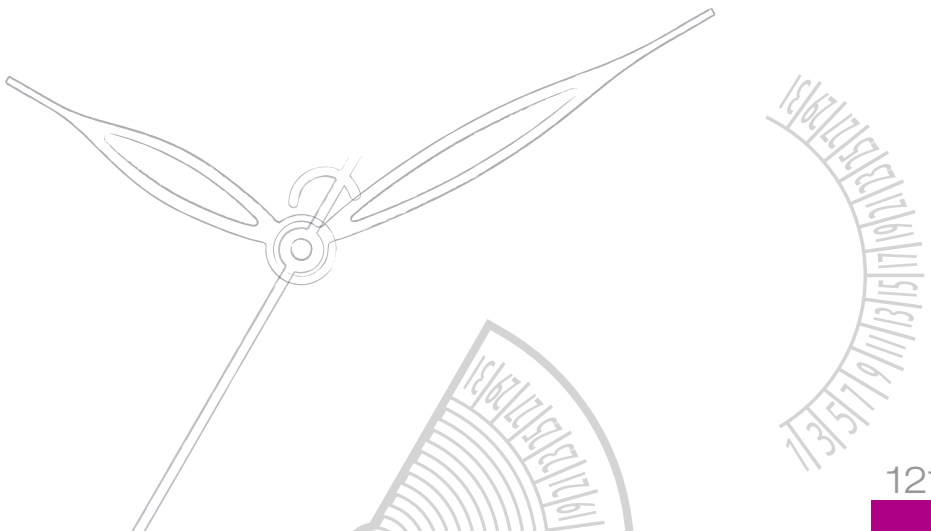

Of Danish origin and founded in 1985, Philippe Pechard is a brand with the philosophy that high quality designer watches should be accessible for a wider audience than it is today. Without sacrificing looks, material or precision nor quality Philippe Pechard has perfected the formula to make the dream come true.

Much like the Industrial Revolution also Philippe Pechard will turn the industry of watch selling upside down. Utilizing the decades of experience in production of high quality watches and by using only top quality parts to guarantee precision we are now able to deliver a designer watch to the wider audience.

Philippe Pechard as a gift has a unique high perceived value, just for those you hold dear. If required a personal inscription can be applied to the case back.

writing instruments

With all the new gadgets and online tools people are writing more and more digitally. Just think about the amount of messages that are being written daily on Twitter, LinkedIn or Facebook... Even though digital writing is increasing it seems that it has still not replaced the 'old fashioned' hand writing. Make sure that people will notice you whenever they find themselves in these situations and customize a pen with your logo or message!
